

Good afternoon,

The Higher Education Opportunity Act of 2008 (HEOA) requires that colleges and universities publish certain information on their website for all potential and enrolled students and employees. The information provided in the following link lists facts, figures and policy outcomes at Clackamas Community College (CCC) that are required by law to be posted for access by our many constituents and consumers.

We are committed to assisting all members of the CCC community in providing for their own safety and security. Each year, the college updates its security report, which discloses the procedures, practices and programs CCC uses to keep students and employees safe and its facilities secure. The 2021 Annual Security Report is available on the CCC website at <https://www.clackamas.edu/campus-life/college-safety>.

Information in the report includes:

- Procedures for reporting crimes and emergencies
- Alcohol and other drug use policies
- Student conduct and disciplinary policy
- Sexual and gender-based misconduct policy

- Crime statistics for CCC's three campuses

All members of the college community are required to notify College Safety of any situation or incident on our campuses that involves a significant emergency or dangerous situation that may involve an immediate or ongoing threat to the health and safety of students and/or employees on campus.
